PROFESSIONAL SUMMARY

Python Fullstack Developer with BCA 2026 graduate building scalable full stack web applications with React, TypeScript, Node.js, and SQL. Developed and deployed 3+ web applications with REST API integration, JWT authentication, and responsive UIs. Seeking an entry-level Full Stack Developer / Software Engineer role.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3
- **Frontend:** React.js, Tailwind CSS, Redux Toolkit, Next.js (Learning), Responsive UI Design
- **Backend:** Node.js, Express.js, Django, RESTful API Design, JWT Authentication, Postman
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools & Workflow:** Git, GitHub Actions, Docker, AWS (EC2), Vite, VS Code, Linux CLI, Vercel, Render

PROJECTS & EXPERIENCE

Volt – Multi-Page E-Commerce & Performance Storefront GitHub | Live Demo
HTML, CSS, JavaScript , Responsive Web Design, Netlify

- **Problem/Challenge:** Designed a high-performance, responsive multi-page e-commerce storefront to deliver a seamless shopping experience and structured product catalog navigation across mobile and desktop devices.
- **Implementation:** Engineered dynamic product categorization views, interactive shopping cart modules, and real-time state synchronization using modern JavaScript and semantic HTML5/CSS3 UI architecture.
- **Impact/Results:** Deployed production-ready application to Netlify, achieving a 98+ Lighthouse performance score and ensuring sub-second page transitions across core shop and checkout flows.

Horolo – Premium Watch Showcase Web Application GitHub | Live Demo
React.js, TypeScript, Vite, Tailwind CSS, Three.js, Framer Motion

- Developed a modern luxury watch interface with reusable React components and TypeScript type safety.
- Implemented interactive 3D visual experiences using Three.js and dynamic micro-interactions with Framer Motion.
- Integrated Google GenAI capabilities into the frontend workflow to provide automated product recommendations.

SpendWise – Responsive Expense Tracker GitHub | Live Demo
HTML5, CSS3, JavaScript (ES6+), Chart.js, REST API

- Built a responsive expense management platform with real-time analytics using Chart.js.
- Engineered dynamic filtering, searching, and form validation features interfacing with backend REST API endpoints.

CODEC Technologies- Remote & APP Development Intern September 2026 - October 2026

- Developed and maintained responsive web and mobile application interfaces using React.js, JavaScript, and modern frontend workflows.
- Collaborated remotely on designing reusable UI components, managing client-side states, and integrating RESTful APIs to enhance user experience.

EDUCATION

Bachelor of Computer Applications (BCA) | Govt.Arts and Science College Kanniyakumari, India
Affiliated with Manonmaniyam Sundranar University 2023 – 2026
Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Web Technologies, Object-Oriented Programming with Python.

CERTIFICATIONS & TRAINING

- **Python Full Stack Development Certification** – Besant Institute of Technology (2026)
- **Responsive Web Design Certification** – freeCodeCamp (2026)
- **Python Coding Foundations** —- Infosys Springboard (2025)
